

Internet Fiber Optic Cable Price Inquiry

Overview

Fiber-optic cable materials typically cost \$1 to \$6 per linear foot, depending on fiber count and cable type. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. CRU provides comprehensive, accurate and up-to-date price assessments and research reports for bare optical fibre across various key regional markets, combined with insights into the factors and events affecting markets. Main cost drivers include cable grade (indoor vs outdoor, armoured), distance, and labor for trenching, splicing, and termination. Before looking at the price, it is important to explain the source of the price data. Whether you're planning a national fiber rollout or sourcing cables for enterprise infrastructure, understanding how fiber optic cable pricing works can help you budget more effectively and make better.
