

Is Luxshare a provider of optical modules

Overview

Luxshare-Tech optical interconnect products and solutions meet the high reliability, low power, low maintenance and high performance needs of data centers. 6T and 800G transceivers to plug-and-play AOCs and industry-leading optical fiber — our portfolio delivers power-efficient bandwidth and clean, serviceable installs that support AI, cloud, and hyperscale builds without adding operational complexity. The Company is committed to providing integrated intelligent solutions, parts, modules and systems for enterprise communication products (high-speed interconnect, optical module, heat dissipation module, base station antenna, base station filter), consumer electronic products (TWS wireless.

Is Luxshare a provider of optical modules

Data Center Products

Luxshare-Tech's portfolio features AOCs (100G-800G) for streamlined module-plus-cable integration and Optical Transceivers spanning 10G-1.6T across leading
