

Israel Germanium Industry and Optical Modules

Israel Germanium Industry and Optical Modules

ICO Newsletter

In industry, a large scale-up centered, at the beginning, in fields related to defense, in the Israel Aircraft Industries, Elop and Rafael. But parallel to this, other industries concentrated on medical, metrology

Germanium Optics & Optical Components

We fabricate germanium components, including optical lenses, prisms, and optical filters, with extremely high precision, ensuring exceptional performance in a wide

[Read More](#)

Germanium Windows and Advanced Infrared Optics for

Infrared optical components play an important role in many unmanned systems used in defense, industrial inspection, scientific research, and

[Read More](#)

Israel Center for Advanced Photonics (ICAP) ??????

This format, which combines solutions suited for both industry and academia, is being implemented for the first time in Israel after having proven

[Read More](#)

Essential Uses of Germanium: From Fibre Optics to

Discover the key uses of Germanium in next-gen lithium-ion batteries, EV research, and grid energy storage driving the future of clean power.

[Read More](#)

Germanium optical components

Germanium optical components, windows, lenses, domes, aspheres, contact-us online

for a quick quote of your IR optics.

[Read More](#)

Germanium Optics & Optical Components

We manufacture precision germanium optics to meet high standards of reliability, surface quality, & optical performance. Talk to Lattice Materials for a custom quote.

Optics industry addresses the germanium issue

Potential supply issues have optics manufacturers and the U.S. government looking at alternative materials to head off disaster.

[Read More](#)

Phase Optics

Germanium is a crucial material in optics and photonics, renowned for its exceptional infrared transparency and diverse optical properties. Its transparency

[Read More](#)

germanium 2022

Infrared Optics.--germanium was used in lenses and windows for infrared optical systems owing to its transparency to part of the infrared spectrum and its high refractive index. germanium-containing
