# Japan ODM Single Fiber Bidirectional 10G

Fast shipment in stock

Default white and black, contact customer service for notes

4U standard model

## Overview

---

The modules are fully compatible with 10G CPRI, SONET OC-192 / SDH STM-64, and 10G Fibre Channel standards. Designed for single-fiber transmission over single-mode fiber, they support reach options from 10 km up to 80 km, enabling efficient fiber utilization and flexible network. SFP+ transceiver that supports 10G connections up to 10 km using single-mode fiber with a simplex LC UPC connector. Power Consumption CLASS 1 LASER PRODUCT, IEC/EN 60825-1:2014 Do not look into the ends of the fiber optic cable or SFP module while converters are. FIBERSTAMP's 10G BiDi SFP+ optical transceiver series is widely deployed in 10G Ethernet and Optical Transport Network (OTN OTU2e) applications. The 10G BiDi SFP+ module will give you the ability to do just that, allowing you to have high-speed, bi-directional (sending and receiving) communication over a single strand of fiber sized for 10G. This guide takes a deep dive into how the 10G BiDi SFP+ supports fiber savings, lessens complexity.

## Japan ODM Single Fiber Bidirectional 10G
