

Overview

Taihan Kuwait, established in partnership with Rank General Trading & Contracting Co. , a prominent local construction and trading firm, is the first production subsidiary in Kuwait. The establishment of Kuwait's first fiber optic factory is crucial for the country's telecom sector, as the state replaces copper cables with faster, more secure optical ones. The factory spans 5,000 square meters, with an initial capacity of 500,000 kilometers of fiber annually and an investment. The facility sits in the Mina Abdullah Industrial Area, southeast of Kuwait City.
