

# Ladder-shaped cable tray translation

## Overview

---

A cable ladder, also known as a ladder cable tray, is a support system that consists of two longitudinal side rails connected by individual rungs. These rungs are spaced at regular intervals and provide a structure that resembles a ladder—hence the name. ] chemins de câbles en acier, les chemins de câbles en fils d'acier et les échelles de câbles en acier. Each cable tray type performs a different function and comes in various materials such as aluminum. A cable ladder has a range of straight lengths and different shaped fittings designed to facilitate changing cabling directions or levels easily, without the need to modify any components.
