

Lightning protection and grounding AC distribution box

Lightning protection and grounding AC distribution box

Distribution box surge protector: an important part of lightning protection

2. Multiple protection: The surge protector has multiple protection functions and can simultaneously protect against threats such as lightning, voltage mutations, and electromagnetic

Earthing guide for surge protection

Without external protection, equipment housed in the building may provide the easiest path to earth for lightning currents via 'side-flashing' where the lightning arcs across from the outside to the inside,
