TECHNICAL REVIEW

Our company has developed and commercialized MPO connectors as multi-fiber optical connectors¹⁾⁻³⁾. Under such background, in order to facilitate for higher speed transmission, a demand for MPO

MPO-type single-mode multi-fiber connector: Low-loss and high-return

We proposed an APC-MPO connector design method with Yoffset for low-loss connections. The design method was verified by low-loss experimental results for plugs combinations

[Read More](#)

Low-Loss MM MPO Connectors Under EF Launched

In addition, measured connection loss dependence on offsets matched the simulation results. Applying these results to MMF MPO connector

Low-loss, low return-loss coupling between SMF and single-mode,

We demonstrate the first low-loss, low-return-loss FC/PC connector for a single-mode, hollow-core fiber. Connector loss of 0.3dB and return loss of -31.3dB was measured, and a 200m HCF jumper with
