

Low-power optical module SFP with delivery date in Finland

Low-power optical module SFP with delivery date in Finland

What is SFP Module? An Ultimate Guide (2024)

An SFP module is a small, pluggable optical transceiver that fits into the SFP port of a networking switch or other device. Sometimes, it is known as

10Gb/s 40km SFP+ Optical Transceiver Module

Discover our 10Gb/s 40km SFP+ optical transceiver module with DDM support, low power consumption, and industrial temperature range. Ideal for enterprise and telecom applications.

What is SFP Module and How to Choose it?

Extremely high or low temperatures can impact the optical power and sensibility of the module. Hence, maintaining a stable temperature is essential to
