# **MPO Fiber Optic Connector Principle**

## Overview

---

Originally introduced for use with multi-fiber ribbon cable, MPO connectors feature a linear array of fibers in a single ferrule. Its space-saving rectangular design allows connections of 8 to 72 fibers, far exceeding traditional LC and SC connectors that support only. Whether you're supporting parallel optics like 100G SR4 or densifying an optical distribution frame (ODF), MPO is now a cornerstone of.

## MPO Fiber Optic Connector Principle

---

### Multi-fiber Push On (MPO) Connectors

Multi-fiber push on connectors, or MPOs, are fiber cable connectors comprised of multiple optical fibers. Learn more at Fluke Networks.

[Read More](#)

MPO fiber optic connectors include fiber optic cable, sheath, coupling assembly, metal ring, pins, and dust cap. The pin portion comes in male and female versions.
