

Make several bends in the middle of the cable tray

Overview

You can buy a manufactured 90 degree bend or make one on a cable tray bending machine but in this video I show you how to make one using a metal bar. Students trading aid on how best to put an internal 90 degrees bend in steel cable tray. A clean and dry cable tray will allow for better accuracy when measuring and bending. Is there some similar table or other reference available for the minimum radius of cable tray bends?

For example, if we have to make a field bend for a 12" (300mm) metallic ladder tray using straight sections of this tray, then how much. That's why you supposed to use stock parts to make the turn and not modify it yourself.

Make several bends in the middle of the cable tray

Cable tray horizontal bends , Information by Electrical Professionals

Ladder style,48" wide 6" tall aluminum I beam, open bottom 6" rung spacing. Manufacturer offers factory bends 30 degrees to 90. We are installing tray around a clarifier at a
