What is a Busbar Temperature Monitoring System?

The core function of a busbar temperature monitoring system is to detect abnormal temperature rises before they escalate into serious electrical failures. By installing fiber optic

Solved: Busbar temperature sensors into PM8240

We have a client request to monitor the temperature of there busbar's within a Data Centre. Each busbar has a PM8240, so we are thinking of adding a Analog card to each PM8240,
