## Optical module

Optical modules typically have an electrical interface on the side that connects to the inside of the system and an optical interface on the side that connects to the outside world through a fiber optic

### Optical Module: Typical Optical Module Troubleshooting Procedure

Check the model of the faulty optical module. If it is not a Huawei-certified optical module, replace it with a Huawei-certified optical module. If the optical module is installed on a GE port, run the display

## **Fiber to Home Network - FTTH - MYANMAR NETCOM**

The ONT serves as the interface between the optical fiber network and your devices. It converts the light signals from the fiber into electrical signals that your devices
