

New Zealand ADSS 6-core optical cable

Overview

652D ADSS fiber optic cable, featuring 6 cores and a 200m span for aerial communication networks. We have a large stock of cable, so delivery times are normally quick, and you are backed by our reputation, having successfully supplied optical fibre products to NZ and the Pacific since 1998. We offer singlemode and multimode, air blown and traditional loose tube hauled cables, armoured, fire. Fiber Optic Cable 258 Original Std ADSS Flex-Span ADSS New Std ADSS Applications • Electric utility transmission lines – Typically framed under conductors • EHV environments – Tracking-resistant options available Features • Up to 432 fibers in cable – Gel-Free Buffer Tube options available – up to. The 6 core ADSS cable (All-Dielectric Self-Supporting Cable) is a critical innovation in the field of fiber optic communications, offering a robust and versatile solution for high-speed data transmission in challenging environments.

New Zealand ADSS 6-core optical cable

(ADSS) All-Dielectric Self Supporting cables

BISMON's ADSS are All-Dielectric self supporting cable and single jacket designed for aerial installation. The optical fiber cable(ADSS) design provides no supporting part or messenger wire required.
