

# **Optical Interface Module ECI**

## Overview

---

The ECI Networks J9054D-ECI is an HPE Aruba expansion module designed to add optical fiber connectivity to compatible networking equipment. This single-port module provides a dedicated LC 100Base-FX Fast Ethernet interface, enabling reliable data transmission over multimode fiber. ECI compatible OTR100P2\_LR4 is CFP2 (C (centum) Form Factor Pluggable) Transceiver, operating over Double Fiber Single-Mode Fiber (SMF). Find many great new & used options and get the best deals for ECI X73484 Omsc16 4 Optical Module With Extractable 4 X Stm16 SFP Interfaces. at the best online prices at eBay! Free shipping for many products!Volume discount available - Ask for quote.
