

Optical Power Meter ST100

Overview

This optical power meter series is a compact and an easy-to-use testing instrument for optical fiber networks, which can be used for absolute optical power measurements as well as for relative loss measurements in optical fibers. Santec offers a comprehensive range of Optical Power Meters designed to meet diverse testing requirements in fiber optic applications. Our 1936-R/2936-R series boasts state-of-the-art analog boards with a whopping 250.

Optical Power Meter ST100

Optical Power Expert , EXFO

Connected optical power meter: an essential tool for technicians installing or maintaining any fiber optic network (FTTx).
