

Outer diameter of 8-core armored single-mode fiber

Overview

Imm (main cord) Material Stainless Steel Color Silvery White UL94 V-0
(*Burning stops within 10 seconds on a vertical specimen, no drips of flaming particles. Hydrolysis resistant and special tube filling compound ensure a critical protection of fiber. Specially designed compact structure is good at preventing loose tubes from shrinking. Steel wires ensure tensile strength, PE sheath protects cable from ultraviolet. Small diameter, light weight and installation. The Starlight SWA Single Mode OS2 9/125 Fibre Cable is suitable for direct burial installations making it the perfect solution for harsh environments (Read more) The Starlight SWA Single Mode OS2 9/125 Fibre Cable is suitable for direct burial installations making it the perfect solution for the. Core size determines performance: Single-mode (9 μm) is ideal for long distances; multimode (50 μm or 62.5 μm). Cladding is standardized at 125 μm across all fiber types to ensure connector and splicing compatibility.
