

PZ30 Plus Distribution Box Specifications

Overview

The PZ30 lighting distribution box is suitable for single-phase and three-phase circuits with a frequency of 50Hz, rated voltage of 500V or below, and a load current not exceeding 100A. This comprehensive guide is intended to shed light on the various aspects of the PZ30 distribution box. Enecell is a famous China PZ30 Electric Lighting Power Box Manufacturers and Lighting Distribution Box Suppliers, The PZ30 Lighting Distribution Box offers versatile applications, user-friendly design, and comprehensive protection, making it an ideal choice for modern buildings. The main structural components of the PZ30-A terminal combination distribution box series include transparent cover, upper cover, box body, mounting rail, track height adjusting screw, conductive row, wire shield and electrical switch components.
