

Power distribution box burned in Democratic Republic of Congo

Overview

There were plans to build the Western Power Corridor (Westcor) to supply electricity from Inga III hydroelectric power plant to the Democratic Republic of the Congo, Angola, Namibia, Botswana and South Africa. According to the statistics the energy export was in 2008 small and less than from the. The Democratic Republic of the Congo has reserves of,,, and a potential power generating capacity of around 100,000 MW. As of 2009, the DROC's crude oil reserves came to 29 million cubic metres (180 million barrels).
