Price of Circuit Labeling for Construction Site Distribution Boxes

Overview

Specs: 40–60 circuits, weather-resistant, color-coded and labeled for every subpanel. This guide provides practical USD ranges and per-unit pricing to help set a budget. This standard describes requirements for numbering and labeling of real property electrical distribution equipment, circuits, and site lighting at Lawrence Livermore National Laboratory. This is an internal LLNL standard meant to guide the design of new facilities, facility modifications, and MS-900 Self-Adhesive Arc Flash Labels are designed to mark switchboards, panel boards, industrial control panels, meter socket enclosures, and motor.
