

Protecting Mobile Fiber Optic Cables

Overview

Crushing/stepping: Keep cables off walkways or use trays so they don't get squished. Yet, outdoors, they face temperature swings, moisture, UV exposure, rodents, and human interference. Fiber optic cables are widely used in modern optical networks, and knowing how to protect fiber optic cables is a basic but often overlooked part of daily operation. They are often easily accessible in shafts, ditches, tunnels or on buildings and railway lines.
