

# Relay Protection AC Unit IP65

## Overview

---

Features a rigid glass-reinforced polycarbonate enclosure and has an IP65 protection class. What is an IP65 safety relay?

The IP65-protected safety and coupling relay combines personal and plant protection in a robust housing. It monitors safety components such as emergency stop buttons or light barriers, immediately shuts down the machine in the event of a fault, and at the same time. Looking for product documentation?

Access product catalogues, operating instructions, technical documents, CAD files, and more. Questions?

Installation, commissioning, maintenance, product selection, software updates: we can help! Load external content supplied by Pardot?

Long term cost reduction (TCO) for trainings and maintenance by reduce variety of relays A fast and selective arc fault mitigation for air-insulated LV & MV switchgear and Relion protection and control relays and sensor technology protect staff and plant facilities for many years. Providing class leading AC/DC and DC/DC chargers, highly customisable charge options and high performance lithium batteries.
