

# Replacing batteries in home smart power distribution cabinets

## Overview

---

When installing batteries, install battery trays at first, then place batteries onto the trays, and connect cables. Issue:How do I replace the batteries in my SURT or SRT series Smart-UPS?

Product Line:Smart-UPS Online Environment: All SURT/SRT models 3Kva or larger, All Serial NumberUse insulated tools to install power supply and distribution devices. System ROM and firmware messages might display "energy pack" in place of "Smart Storage Battery. De-centralized power distribution (also called distributed power architecture) is an architecture in which the system power requirements are divided into multiple intelligent power distribution centers (PDCs) spread throughout the vehicle. Interface design in a Smart Power Distribution Unit with energy storage batteries lets you optimize electricity use under peak-valley pricing.
