

Requirements for North Asia BSG Series Explosion-proof Distribution Boxes

Overview

All components and technical parameters need to comply with the national standard GB7251 design requirements, sample production needs to be notified to the construction unit, supervision, construction unit of the relevant personnel acceptance before full production. Production Packing & Delivery

ABOUT YITONG Nanyang Yitong Explosion proof Electric Co. is an advanced electrical solution provider for hazardous areas of zone 1, zone 2, and zone 20, zone 21, zone 22. The main switch and sub switch operation panels can be distinguished according to color. The material can be customized according to user requirements.

Explosion-proof distribution boxes are mainly used in coal mines, fire stations, petroleum, petrochemical installations and textile and other flammable and explosive places. Supermec ATEX Junction Box & Enclosures are designed to satisfy most of our clients' requirements for CONTROL explosion-proof and flameproof enclosures.

Requirements for North Asia BSG Series Explosion-proof Distributio

Explosion Proof Distribution box-

We have wide range explosion proof types of air conditioners, electrical control box, CCTV camera, lamp & light fixtures, electrical equipments, and box & fittings.
