

# **Requirements for Removing Electrical Distribution Boxes at Construction Sites**

## Overview

---

This fact sheet explains how to apply the requirements shown in AS/NZS 3012:2019 Electrical installations - construction and demolition sites (AS/NZS 3012:2019), which is called up as a mandatory standard by section 163 of the Work Health and Safety Regulation 2025 (WHS). This guidance is aimed at those responsible for planning and subsequent management, and those who control the installation and use of electrical systems and equipment on construction sites. Order this product from HSE Books. It explains what to do to reduce the risk of accidents involving. The purpose of these requirements is ensure demolition involving electrical equipment is performed safely. However, exposure to weather, frequent relocation, rough use and other conditions not normally encountered with conventional wiring systems necessitate special consideration not require in other applications or in completed structures.
