

Rvv composite optical cable

Overview

Composite Hybrid Optical Fiber Cable GYXTW RVV 12 Core Fiber Optic Cable with integrated power conductors (12 * 1mm²). These types of cables allow for multiple transmission paths by various components, whether they be metal conductors or fibre optics, and allow the user to have a single cable, therefore reducing the. Designed for outdoor and industrial applications, this cable is ideal for environments where.

Rvv composite optical cable

Photoelectric Composite Hybrid Optical Fiber Cable GYXTW RVV

The GYXTW Photoelectric Composite Hybrid Optical Fiber Cable combines optical fibers for high-speed data transmission and power cables for electricity supply, offering an efficient "two-in-one" solution.
