

ZTP Thermal & Power

Sealed railway cable junction box

Overview

These junction boxes incorporate flexible TPU membranes directly integrated into the box structure, which adapt and automatically seal around the cable or conduit at the moment of insertion, without the need for cable glands, plugs, or any additional accessories. Delvalle designs and manufactures custom electrical enclosures for the railway and tunnel sector, ensuring safety, reliability, and long-term performance in the harshest environments. Key solutions: Trackside signaling and barrier control Power & lighting distribution Vandal-proof station. hāwa junction boxes are the perfect solution for connecting cables or lines via terminals. Designed to withstand challenging conditions, these junction boxes offer a variety of sizes and specifications tailored to meet the stringent demands of. We offer bespoke, custom-made terminal boxes and terminal box combinations, as well as standard products with short delivery times.

Sealed railway cable junction box

Solutions for cable routing in the railway industry

Along the rail, our new compact buried cable channel KFS-0A stands out for its performance. The KFS-0A is an innovative, compact cable
