

Senegal Blue Laser Diode Module

Senegal Blue Laser Diode Module

RGB Laser Modules

A display that uses a laser as a light source combines red (638 nm), green (520 nm), and blue (450 nm) laser beams, which are the three primary colors of light. This

[Read More](#)

Blue Lasers , 420-499nm, pulsed, CW & diode lasers

With wavelengths from 415 to 495 nm, our blue lasers provide unmatched versatility for precise materials processing, superior metal absorption, and high-resolution

[Read More](#)

10mW, 450nm Blue Alignment Laser Diode Module

Violet and Blue Alignment Laser Diodes used in monochromatic and visual-based vision systems and alignment and sensing applications are available at Edmund Optics.

Blue Lasers - Power Technology, Inc.

Since 1969, Power Technology, Inc. has been manufacturing, designing, and distributing blue laser diode modules for companies in the microscopy, spectroscopy, laser printing, telecommunications, medical

[Read More](#)

Laser Modules

High-quality laser diode modules in Red, Green, Blue, IR & UV. Compact, plug-and-play, and in a range of wavelengths & outputs.

[Read More](#)

SLD Laser's LaserLight Blue: Materials Processing and

SLD Laser has recently unveiled the newest member of its laser module family: the LaserLight Blue. This module joins the LaserLight Fiber and

Micro-RGB Modules

Utilizes microRGB Superluminescent Light Emitting Diodes (SLEDs) instead of traditional laser diodes (LDs), which significantly reduces speckle noise--a

[Read More](#)

The Blue Laser and Its Applications in Industry and

Blue Laser, its advantages and applications. State-of-the-art blue semiconductor laser modules make a reliable and cost-effective choice for numerous purposes.

[Read More](#)

Laser Diode Modules, Laser Modules, Diode Module

Berlin lasers integrates the most advanced laser diode technology with qualified optics, constant current driving circuit board and compact packaging, providing a

[Read More](#)

CW Blue Laser Diode Module (445/473/488nm)

The Stradus® Blue (445nm, 473nm, and 488nm) modules are all direct diode, TEM00 lasers that has the highest possible optical power with the lowest noise levels.

[Read More](#)

High Power Blue Galvo Laser

This laser module is built with 12 high-power blue semiconductor laser diodes. All of the laser diode are spatially combined to form one, unidirectional laser beam

[Read More](#)

High-Powered Diode Lasers--New, Bright and Blue

Blue diode laser designs with kW powers are advancing in industrial processing applications, including cutting, welding and foil joining of copper and

[Read More](#)

Laser Diode Modules, Green, Blue & Red , RS

Laser Modules Laser modules are packaged devices which contain a laser diode alongside other components, such as power control. They often have an aluminium body and cables to connect to

[Read More](#)

High Power Blue, Green, Red, Infrared Laser Modules

635nm red laser diode module What makes a good job for engineers and professionals

to make ultra clear and precise dot indication for all laser marking works? Unless the use of a simple laser pointer

[Read More](#)

Blue Violet Laser Modules

Blue laser modules in 405nm, 440nm, 473nm and 488nm wavelengths. Blue Laser Modules are fully self-contained with an integrated temperature controller (TEC),
