

ZTP Thermal & Power

Serbian Multimode Logging Fiber Optic Cable Technology Company

Overview

By combining the extensive fibre optic and microwave network, CETIN Serbia covers 98% of national territories and offers transmission solutions designed to meet a variety of requirements allowing resilient traffic routing and various speeds ranging up to 100 Gbps covering both. The entire network is running along the Highway (JP Putevi Srbije) which provides lowest RTD in region. We are a company involved in consulting, designing, construction and maintenance of telecommunication infrastructure, through performing construction works as well as selling GPON active and passive equipment. The Skyline Belgrade Project has been carried out by renowned Israeli investor and developer AFI Europe, the creator of Airport City Belgrade, the first and only business park in the city, and Central Garden, the first apartment. From 2023 to 2024, Serbia`s import trend for fibre optic cables experienced a decline of -17.

Serbian Multimode Logging Fiber Optic Cable Technology Company

Optical fiber logging cable Special cable

Optical fiber logging cable enables the transmission of detailed data over long distances, making it an essential component in oilfield service
