

# Sierra Leone Division Method

## Overview

---

The subdivisions of Sierra Leone are as follows: Sierra Leone is divided into 4 provinces and a Western Area for the capital Freetown. Imagine buying a delicious pizza at Lumley Beach for 50 000 Leones and sharing it fairly with four friends. How do you cut it so everyone gets an equal share?

Forget textbooks—pizza slices teach division better than any worksheet. Abstract: This mixed-methods study examines the alignment between teaching methods and national mathematics curriculum standards in Sierra Leone, where persistent low student performance suggests potential implementation gaps. This brief provides data and references to the literature on issues that matter for education in Sierra Leone. In the lexicon of political strategy, territorial control is a powerful tool; whether on a military battlefield or in the administrative governance arena. As Minister of Basic and Senior Secondary Education, I am pleased with the professional competencies demonstrated by the writers of the e West African Examinations Council's (WAEC) examinations.
