# **Single-mode armored fiber optic cable model description**

## Overview

---

Our Armored Singlemode Fiber Optic Cables are designed for optimal performance and reliability in outdoor applications. Featuring high performance Corning® glass singlemode fiber with low insertion loss (IL) and return loss (RL), and LC connectors, our cables offer fast, reliable. Specially designed compact structure is good at preventing loose tubes from shrin I steel wires ensure tensile strength, PE sheath protects cable from ultraviolet mall diameter, light weight and installation. Aramid Yarns is the Strength member and it provides tensile strength along the len 250micron acrylic coated, Graded index iber. Each SteelFlex Cable features OptoSpan exclusive OptoLock, which is a system of overlapping links which lock into place to prevent damage from dust, moisture.

## Single-mode armored fiber optic cable model description

---

### Pre-Terminated Armored Singlemode Fiber Optic

Our Armored Singlemode Fiber Optic Cables are designed for optimal performance and reliability in outdoor applications. Featuring high performance Corning® glass

### Single-mode optical fiber

In fiber optics, a quadruply clad fiber is a single-mode optical fiber that has four claddings. Each cladding has a refractive index lower than that of the core.
