metals analysis Companies and Suppliers in Slovenia ,

The new SPECTRO iSORT is a battery-powered, hand-held spectrometer for on-site identification and analysis of all common metal alloys. It uses an efficient arc excitation and requires neither argon nor

[Read More](#)

Mobile Metal Analyzer

For onsite metal analysis, SPECTRO offers a complete range of mobile metal analyzer products, from handheld XRF to portable Arc Spark OES spectrometers.

[Read More](#)

Metals and Inorganics Testing , SGS Slovenia

Metals are naturally-occurring substances that conduct electricity, have a metallic luster, are malleable and form cations. They can adversely affect human health in elevated doses - causing organ,

[Read More](#)

SILABS

The list of accredited measurements can be found on the Slovenian Accreditation website - accreditation document LP-112. We provide services in accordance with

[Read More](#)

Metal analysis spectrometer

Find your metal analysis spectrometer easily amongst the 39 products from the leading brands (Thermo Fisher, Bruker, LECO,) on DirectIndustry, the industry

[Read More](#)

Precious Metals Analysis , SPECTRO

SPECTRO offers a broad range of XRF and OES spectrometers optimized for precise analysis of precious metals, ensuring accuracy and reliability.

[Read More](#)

Biomonitoring of selected trace elements in women, men and children

project Public health impact of long-term low-level mixed element exposure in susceptible population strata (PHIME) within the EU 6th Framework programme and National Human Biomonitoring

[Read More](#)

Laboratory of Applied Surface Science

We operate one of the most advanced suites of microscopes and analytical methods in Slovenia. This enables us to perform highly precise research comparable to

[Read More](#)

Precious Metals Manufacturers In Slovenia

Find the top precious metals Manufacturers in Slovenia from a list including Carbolite Gero Ltd - part of Verder Scientific, TreasureHunter3D & GeoSIG Ltd

[Read More](#)

Arsenic speciation and elemental composition of rice samples from the

A survey of highly toxic arsenic compounds, together with some other elements was carried out on 40 polished rice samples (white, basmati and parboiled) and 10 brown rice samples

Slovenia: Spectrometers Market Report

The Slovenian Spectrometers Market Report Description This report presents a comprehensive overview of the Slovenian spectrometers market, the impact of COVID-19 on it, and a forecast for the

[Read More](#)

Spatiotemporal Analysis and Physicochemical Profiling

Heavy metal content was also examined to assess pollution sources and potential health risks. The findings contribute to a deeper understanding of

[Read More](#)

Risk assessment of metals and PAHs for receptor organisms in

This study provides the first data on metal and PAH exposure to small mammals and passerine birds in southeast Europe, focussing on the transfer of metals and PAHs through the food

[Read More](#)

A SpectroMAXx optical emission spectrometer for the

The chemical analysis of metals is performed on the SpectroMAXx optical emission spectrometer, manufactured by Spectro. We carry out chemical analysis of low

[Read More](#)

EPR /ESR quantitative & qualitative spectroscopic analysis

Home For Industry Services Chemical analysis Electronic spectroscopy EPR /ESR quantitative & qualitative spectroscopic analysis

[Read More](#)

Laboratory for Metals, Corrosion and Anti-Corrosion

Laboratory for Metals, Corrosion and Anti-Corrosion Protection We offer technical and expert support in the field of metals - corrosion and anti-corrosion protection.

[Read More](#)

Slovenian NMR Centre

Slovenian NMR centre is a national facility offering access and expertise in NMR to users in academic and industrial institutions. The focus of our own research is on

[Read More](#)

STUDY OF TRACE AND ULTRATRACE ELEMENTS IN SILAGE INTENDED

After closed-vessel microwave digestion, inductively coupled plasma mass spectrometry (ICP-MS) was used to analyse samples. Grass silage and maize silage samples from three important

[Read More](#)

Heavy Metal Analysis , SGS Slovenia

We provide comprehensive analytical testing solutions for all heavy metals to help you minimize the risk of non-compliance to national and international standards. Our global network of state-of-the-art food
