

South Africa FOB Polarization Guaranteed Fiber Optic Cable G 652D

Overview

652D FRP flat ADSS fiber optic cable, featuring 6 cores and spans from 200m to 1000m for aerial communication networks. ITU-T (International Telecommunication Union) defines several single-mode fiber standards, including G. At Robustec Trading, we specialize in the design, manufacturing, and supply of high-quality fiber optic cable assemblies and accessories. With over 23 years of experience in the South African fibre industry, we proudly serve commercial, industrial, and parastatal clients with reliable, locally. 652D Optical Fiber is ideally designed for use in metropolitan, local and access networks due to its superior specifications-low optical loss across the entire wavelength range from 1260 to 1625nm, tightest available geometry, low splice loss and low polarization mode dispersion (PMD). We have years of extensive experience designing FTTH and FTTB as well as point-to-point transmission networks We can advise on fibre optic material use, network design strategies as well as setting up of a new Fibre Network Operator (FNO) or analyzing an existing FNO Client Centered Outlook.
