

South African shelf-mounted temperature measurement optical cable brand

Overview

Malesela Taihan Electric Cable Also known as M-TEC, has been a leading player in the cable industry in South Africa for over 50 years. Distributed temperature sensing (DTS) measures temperature distribution over the length of an optical fiber cable using the fiber itself as the sensing element. YOA Cable, Africa's largest optical fibre cable manufacturer, is known for delivering world-class optical fibre products and exceptional customer service. Established in 1946, the company offers cable designs, product development, installation support, commissioning and diagnostic testing through their engineering. Foxboro Temperature Transmitters, Sensors and Thermowells are provided with the highest quality and reliability for a complete temperature measurement solution.

South African shelf-mounted temperature measurement optical cab

Fiber Optic Temperature Sensing and Measurement , Luna

High-definition temperature sensing based on the natural Rayleigh backscatter in optical fiber delivers a virtually continuous line of temperature measurements with
