

South Korean All-Optical Switch Manufacturer

Overview

(KEOC) is a manufacturing company specialized in precision optical parts, and carries out the entire process from optical design, polishing, coating, and assembly with its cutting-edge technology. (KEOC) produces various types of optical products made with the standard/customized production methods. The Asia-Pacific region has emerged as a dominant force in optical switching technology, with Japan and South Korea leading innovative developments spanning quantum communication, AI infrastructure, and telecommunications. Optical part, extending to Vehicle Brake part and Handling Part #Company introduction DMTECH has started a business of Optical part, extending to Vehicle Brake part and Handling Part since April, 1990. Above all things DMTECH has been growing up as the company that has the best quality under the. Mordor Intelligence expert advisors conducted extensive research and identified these brands to be the leaders in the South Korea Optoelectronics industry. Design services for electronic, optical & mechanical systems as well as PCBAs, PCBs, backplanes, enclosures, RF, optical & precision machined components.

South Korean All-Optical Switch Manufacturer

Optical Switches

The fastest, smallest, most reliable optical switches in the industry. Used in medical devices, undersea cables, quantum computers, underground and outer space.
