

# **Specifications of optical fiber cable ducts**

## Overview

---

100 describes characteristics, construction, test methods, and performance criteria of optical fibre cables installed by pulling method for duct and tunnel application. Any such damage may alter the cable's characteristics to the extent that the cable section may have to be replaced. To ensure all specifications are met, consult the specific cable specification sheet for the cable you. Please refer to our General Installation, Safety & Handling recommendations before handling.

## Specifications of optical fiber cable ducts
