ColorLite GmbH

The ColorLite spectrophotometer sph900 has a trend-setting O-LED colour display and an intelligent interface that automatically detects connected accessories. This

[Read More](#)

Automated Microplate Washers & Dispensers , Agilent

The automated microplate dispensers perform across a range of volumes from milliliters down to 500 nanoliters. They offer simple, repeatable and precise liquid delivery throughout their defined volume

[Read More](#)

The Art of Precision Liquid Dispensing

Explore the art of precision liquid dispensing and learn how to optimize tools, parameters, and efficiency for accurate, sustainable laboratory

Assessing variations in manual pipetting: An under-investigated

The latter can be overcome technically by pre-wetting the pipette tip by aspirating and dispensing the liquid a few times to saturate the air cushion. Alternatively, other liquid handlers,

[Read More](#)

Automatic Dispenser & Diluter for Atomic Absorption

This positive displacement system provides better than 99% accuracy, independent of a liquid's viscosity, vapor pressure and temperature. The inert
