

# **Speed Up Mobile Fiber Optic Internet Access**

## Overview

---

Start by choosing a Wi-Fi repeater that's compatible with your router and offers the coverage and features you need. Select an ISP that provides a service level agreement (SLA) for a specific level of performance. As mentioned earlier, HFC, or Hybrid Fiber-Coax, is a type of "Fiber-powered" internet setup that combines fiber-optic cables with cable TV lines (coaxial cables). The speed of your internet connection to your Wi-Fi® gateway or All-Fi Hub is pretty consistent. Fiber optic internet is one of the fastest and most reliable types of broadband available, but it can still suffer from performance issues due to various factors.
