

Sudan Double-Armored Flame-Retardant Optical Cable Manufacturer

Overview

Offered in OM1, OM3 and OM4 multimode and OS2 singlemode, in 4, 8, 12 or 24 core fibre configurations. Optical fibres are housed in loose tubes that are made of high-modulus plastic and filled with tube filling compound. The tubes (and fillers) are stranded around a metallic central strength member to form a cable core. Our fire resistant/fire survival cables feature a steel wire/steel wire braiding/corrugated steel tape armour to provide mechanical strength. The internationally known multilayer inner sheath ALPA® construction: Aluminium/HDPE/PA (nylon) withstands aggressive constituents and fluids, providing huge benefits for installing Fiber optic i and UV Resistant.

Sudan Double-Armored Flame-Retardant Optical Cable Manufacture

ChimeraX(TM) Fully Dry Design SWA Fire Resistant Cable

Specification Hermesys ChimeraX(TM) series SWA Fire Resistant Cable is a steel wire armored (SWA) fiber optic cable designed for fire-resistant and high-durability applications. It features 4, 12,
