

# **Suspended Platform Distribution Box Wiring Connector**

## Overview

---

A Suspended Platform Industrial Plug is a type of electrical connector specifically designed for use with suspended platforms in industrial environments. The suspended platform control box is a high-performance electrical control system, the core power source designed specifically for the ZLP series suspended platform and various aerial work platform. This control box features overload protection, emergency stop, phase loss protection, limit switch. Our flexible distribution boxes enable reliable, decentralised signal transmission and power transmission up to protection class IP67 - wherever passive distribution boxes are required.
