

Swedish optical module company

Overview

We're a global leader in high-speed network system solutions, offering top-tier product development, design, testing, and delivery services. We work with mid to large organizations, supporting network engineers, data center teams, and IT purchasers through long-term partnerships, tenders, and project-based supply. We focus on development aimed at series production and continuous improvement of existing products. Whether it is a product from our extensive portfolio, individual adaptations, or application-oriented new developments - there are many. NorthLab is a Gold Sponsor of OPD 2026, held in Jyväskylä, Finland - the largest yearly Photonics event in the Nordics. Importing components from abroad involved a great deal of effort for German companies.

Swedish optical module company

Empowering Photonics Innovation , NorthLab Photonics

NorthLab Photonics AB, based in Stockholm, Sweden, specializes in the distribution and development of advanced fiber optic tools and
