

Swiss power distribution box 3C certification company

Overview

The certified "SwiSBox" control box from Swistec GmbH meets the requirements of TR BSI-TR-03109-5 and ensures the secure transmission of control commands in the smart grid. Other applications such as controlling heat pumps or PV systems are possible by using certified control boxes. To sell your electrical and electronic products anywhere in the world you will need to prove that they meet the safety standards and requirements of their destination. Get an overview of our accreditations, our certification as well as the notified body. Inspektionsstelle (Typ A) für die sicherheitstechnische Beurteilung von druckführenden Geräten und Anlagen, Rohrleitungsanlagen, Verfahrensqualifikationen für Schweißen und Löten, explosionsfähigen Bereichen, im. Control boxes are central components in smart grids whose operation depends on high interoperability and cyber security. In this way, we are committed not only to the quality of our products and services, but also to responsible action with respect for the environment, energy, health and.
