

Switch with all optical ports

Switch with all optical ports

Telecommunications All Optical Switch Products

Polatis offers test and measurement solutions that provide world-class performance at an attractive price and offers scalable, high-capacity, low-latency optical switching that allows service providers and

SFP Network Switches , SFP Managed Port Switches

SFP network switches offer an "All-Fiber" configuration. SFP fiber switches extend the fiber optic network to multiple remote locations with varying distances.

[Read More](#)

What is an Optical Switch?

An optical switch is a multi-port network bridge, which connects multiple optic fibers to each other and controls data packets routing between

All-Optical Ethernet Switch

An all-optical Ethernet switch provides both optical uplink and downlink ports, and uses optical fibers that feature high transmission speed, large bandwidth, and strong anti-interference capability.

[Read More](#)

SFP Network Switches , SFP Managed Port Switches

This type of setup allows you to extend your fiber optic network from a central "hub" location to many remote locations of varying distances and fiber types. The product line consists of 10, 28, and 36 port
