

TCL12-core indoor multimode optical cable

Overview

High-quality LC-LC multi-mode breakout installation cable for indoor (inside buildings). Black protection jacket with flexible and extremely tear-resistant pulling aid of nylon material on. The central tube cable construction, by isolating the fibers from installations and environmental rigors, provides stable and highly reliable transmission parameters. Imm (main cord) Material Stainless Steel Color Silvery White UL94 V-0 (*Burning stops within 10 seconds on a vertical specimen, no drips of flaming particles. Evolution of fiber cabling types used in the enterprise, the differences between and advantages of OM3, OM4, OM5 and multimode and singlemode fiber CommScope designs and manufactures a comprehensive line of fiber optic cables—from outside plant to indoor/outdoor and fire-rated indoor fiber cables. These cables are essential in data centers, enterprise networks, and telecommunications systems where speed, scalability, and.
