

TE Terminal Box Identification

Overview

The markers and marking systems offering covers all the needs for electrical panel identification: markers and labels for terminal block, wire & cable, component & equipment. Up to 1400 models available and even more with our on-demand customization service. These clip in terminal markers allow for quick identification of DIN rail terminals, and are available as blanks, pre-printed vertical or pre-printed horizontal identification. This selection guide will help you and your customers choose appropriate terminals and splices for. Our ENTRELEC portfolio includes DIN rail terminal blocks with various technologies: screw, PI-Spring, spring, IDC, pluggable, stud, and more. Our SNK PI-Spring terminals blocks are qualified for harsh environments, including hazardous locations, railways, and marine and solar applications.
