

Telecom Wall-Mounted Server Box

Overview

Wall mount Enclosure is a structurally advanced metal enclosure designed to provide secure storage for telecommunications equipment in remote locations and ideal for server rack and network rack applications including servers, network switches, and patch panels required for Edge. Note: Due to special handling requirements this product is not eligible for free shipping and will incur additional shipping charges. The low-profile design positions large, rack mount equipment vertically, while allowing access for upgrades, refreshes and adds/drops.
