

The electrical wiring in the distribution box is making a buzzing sound

Overview

If you notice a buzzing sound coming from your wires or outlets, contact an electrician. Some common reasons for electrical humming or buzzing noises include: If electrical wires are not properly secured or damaged, they can vibrate and emit a humming noise. This could be due to natural wear and tear, poor installation, or animals chewing on exposed wiring. The panel's function is protection, housing circuit breakers that automatically interrupt the flow. Here, we'll dive into the causes behind a breaker box making sizzling noise, and how we can remedy it.
