## **Introduction to Passive Optical Network Splitter Architectures**

The splitters are stand-alone, not co-located with other splitters. In this scenario, the splitter is most often located in a closure or pedestal in the outside plant.

## **Optical Fiber Splitter Types -- Complete Guide , TTI Fiber**

This guide covers what optical fiber splitters are, the main types of optical fiber splitters you should know about, how to pick the right one, and how to install and maintain it properly.
