

The set-top box was disconnected from the fiber optic cable leading to the house

Overview

The first thing to do is check if your set-top box is connected to the internet.
ATT Cable disconnected from wall, easy fix?

Fixing a Apc connection requires a fusion splice or mechanical splice. First, check the basics—look for power issues on your optical network terminal and inspect all cables for visible damage. This technology has revolutionized the field of telecommunications, offering significantly higher bandwidth and faster signal transmission compared to. If the fibre comes into the back of the enclosure it has an anchor and this should have prevented the cable from pulling out unless it fell from a height or was incorrectly installed.

The set-top box was disconnected from the fiber optic cable leading
