

There is no fiber optic cable at home

Overview

Before purchasing and installing fiber optic internet, you will need to see if your home already has fiber optic cables. No question is too small, but please be sure to read the rules before asking for help. But what do you do when fiber optic internet isn't available or practical due to location, infrastructure limitations, or common fiber internet issues?

Fibre broadband is the UK's most popular choice of home internet connection, with over 98% of homes having access to FTTC (Fibre to the Cabinet) broadband in 2025. This article will give you an overview of the use cases for fiber-optic networking, some of the terms used in fiber networking, and suggestions for setting up a fiber network. Once you understand the basic concepts, you can check out my Recommended Equipment section toward the bottom of the.
